

## Test scenario

1. Start I'm Application.

2. Input the initial password 0000.

A light gray rectangular screen. At the top, it features the same black icon of a person and a bar chart as seen in the previous image. Below the icon, the following text is displayed in a small, black, sans-serif font:

This is for your application lock.  
It's not account password.  
Initial password is 0000.

Below the text is a horizontal line representing a password input field. At the bottom of the screen is a numeric keypad with the following layout:

1	2	3
4	5	6
7	8	9
	0	BACK

3. This is the first page you will see, the login page. Before logging in, click "Sign Up"

7. Press Modify button on "Personal Data tab" to set the personal data.

A user profile form with a stylized icon of a person at the top. The form contains the following fields:

- Name: raon
- Country: South Korea
- City: Seoul
- Rest address: Seoul, Korea
- Phone number: 01012341234
- Birthday: 2015 11 11

A yellow button labeled "CONFIRM" is located at the bottom of the form.

8. We tested on 5 virtual companies. Only one company is handled on this document.

Chrome on PC is recommended for these virtual companies.

11. A dialog pops up with the push alarm on user's device.

12. Permission List 탭에서 개인정보 제공 동의여부를 선택합니다. Select agree/disagree on Permission List tab.

13. Simultaneously, related information is stored on the Server's CompanyTable and WaitingTable. CompanyTable stores information of the company, and the WaitingTable stores the list of the companies waiting for the response from the user.

#### CompanyTable

	companyUrl	alias	requestData
	http://220.149.236.22:8080/raon/Returned	raon	address/phone/name/
▶*	NULL	NULL	

WaitingTable : If the user decides whether agree or disagree, the data is deleted

	userID	companyUrl
	yjsgoon@gmail.com	http://220.149.236.22:8080/raon/Returned
▶*	NULL	

14. If the user agrees, user is able to check the company on Company List tab. The timer is set to a month as default.

	userID	companyUrl	timer
	yjsgoon@gmail.com	http://220.149.236.22:8080/raon/Returned	2016-05-25
▶*	NULL	NULL	

15. User's decision(agree/disagree), personal data, timer expiration can be checked on the URLs below.

<http://220.149.236.22:8080/mock/ResponseView>
